

Vimesoft: Interactive Learning Platform

Solve Your Digital Training System Needs End-To-End In A Unified Platform with Innovative Interactivity Tools

vimesoft

Vimesoft, an integrated communication platform that offers digital collaboration, video conferencing, enterprise video and interactive learning as an all-in-one unified solution.

Solve Your Digital Training System Needs End-To-End in a Unified Platform with Innovative Interactivity Tools.

Enrich Your Trainings With Interactive Video, Turn Learning Into an Interactive Experience

Convert plain content into visually engaging videos by adding texts, pictures, links, multiple-choice and fill-in-the-blank questions, drag and drop and such other interactions. Measure the interactions instantly and provide feedback simultaneously. Turn the passive audience into active participants by making the learning experience more interactive and engaging.

Organize Live Training Sessions with Integrated Virtual Classroom Features

Create your online training material easily within the platform, record such content and measure the impact of the training readily by means of detailed statistics. Promote teamwork by collaboration tools such as screen sharing, white board, surveys, group and personal chat.

Manage Your Training Processes easily and Effectively

Upload your training contents, schedule, share, evaluate, monitor and report your training sessions. Manage the entire learning process from application to certification end to end and easily. Keep your audience connected and engaged by news, announcements and suggestions.

Enjoy New Features Available Beyond Common Training Management System

Training Contents

Enrich contents by promoting interactive Videos, Scorm, Prezi, Documents and Assignments.

Gamification

Score trainings and engagements to enhance the learning motivation and participation.

Exam

Create exams with multiple-choice, drag and drop, fill-in-the-blanks, true-false, drag or and tag the words.

Customization

Create a training platform that reflects your own corporate identity by your logo and domain name.

Training Catalog

Enhance learning experience with the selected digital contents from our business content partners.

Scalable Configuration

Manage the required quality service levels by scalable configuration based on number of users and traffic load.

Notification

Stay engaged with audience by using automatic e-mail and SMS, reminders and customized notifications.

Security

Keep your contents secure by security settings such as end-to-end encryption, password protection, instructor, user and group management and user-based access to the contents.

High-Quality Video and Audio

Deliver your video contents and virtual classroom trainings with high-resolution video and audio. Manage the network load automatically by adoptive bit rate video streaming.

Integration

Enable login through your corporate accounts by means of LDAP/Active Directory and SSO integration. Integrate your other systems easily by API configuration.

Detailed Reporting

Evaluate your interactive training sessions, by either individual or group based reports and charts, and measure the performance of your training content.

Flexible Installation

Comply with the security and privacy requirements as stipulated by your data regulations by flexible deployment options; private cloud, hybrid or on-premise installations.

Certificate

Create participation and achievement certificates for participants upon completion of the training, and facilitate access to such certificates by QR code support.
